Before we arrive, the following issues **MUST** be Addressed:

- _____ Sprinkler System must be turned off or set to trigger above 200 degrees
- _____ Shut down Heat and/or Smoke Detectors, remove Fire Extinguishers
- _____ Turn off Air Conditioning units
- _____ Unplug all electronic devices and take off outlet covers
- _____ Strip Bed Linens and mattress covers; pick up Laundry and loose clothing.
- _____ Secure loose papers, figurines, glasses, heirlooms, knickknacks and other items prone to damage by moving winds
- _____ You **MUST REMOVE ALL PETS and PLANTS** (including fish)
- _____ Air Mattresses and Select Comfort Beds must be deflated, notify this office immediately if you have a water bed!
- _____ Make arrangements for someplace to stay for approx 4 hours during treatment

The following temperature sensitive articles must be inspected for insects and protected from the heat treatment. Items may be stored in the refrigerator, inside of a chilled cooler or removed from premises for the duration of the treatment. If any item is found to be infested with insects, it must be brought up to your technician before the treatment begins.

- Chocolate, candies and other melting food items
- Carbonated beverages, alcoholic or otherwise, in cans or bottles
- Medication, vitamins, nutritional supplements and medical equipment
- Aerosol cans of any kind (deodorant, hairspray, spray paint any other pressurized cans)
- Deodorant, lip balm, make-up and other personal items prone to melting
- Musical Instruments
- Firearms and Ammunition

As a rule of thumb, any item that would be damaged or melt if left on the dashboard of a closed car in the summer should be removed from the premises or protected from this treatment.

When you return, some of your items may have been moved about to ensure proper heat penetration. Feel free to return these items to their original position at your leisure. It may take several hours for temperatures to return to normal. If any items have been potentially damaged bring it to our attention **immediately**.
